

# Mount Manual

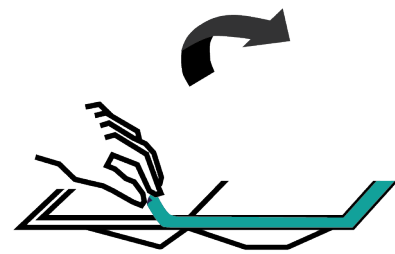

# 1

Mark the points determining where you want to put the tile. Check if they're leveled evenly.

# 2

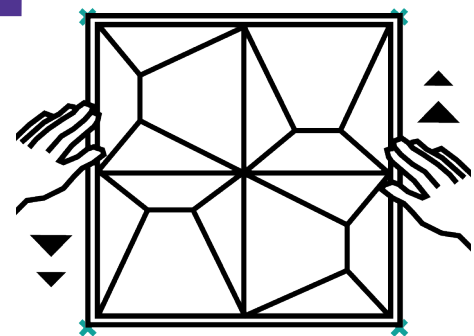

Remove the outer layer of the assembly tape attached to tile's back frame.

# 3

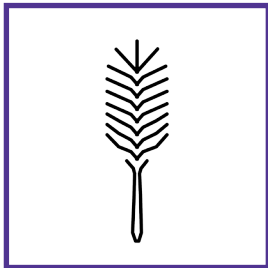

Carefully place the tile following the marked points, starting from one side.

# 4

Slide around the edges with light pressure to ensure proper attachment and you're done!

# Maintenance

Dry clean with a feather duster

Spray with water or detergents

Wipe the surface with a damp cloth
